TRACING NEW PATHS OF PASSION & INNOVATION

“Welcome”

I feel proud when I look back at last 22 years of HG journey.

With a wealth of experience and much more room of fresh ideas! And still full of enthusiasm and visions. I understand that each brand has a unique story to tell & that's what distinguishes it from others in the market. With each and every exciting project we reinvent ourselves again.

Our recipe:

A blend of strong passion, much enthusiasm, new experiences and prospects - this is what keep our minds open and fresh. I invite you to take a look at our brochure and discover our HG family. In words and pictures we give you an insight into our self-image and our range of services.

[PASSIONATE EXPERIENCE FITTERS]

We think, feel and personalise brand architecture down to the last detail. It is great fun, as we love what we do. We are both designers with smart ideas in mind and courageous project managers standing up for a smooth implementation and a perfect workflow. Having various talents and many years of experience, we are always fully committed to your task. Really good and really nice, that's how we bring two worlds in line: the creative and the technical one.

[THAT'S HOW WE WORK]

Every new task fires our imagination and starts up thinking processes.

Is there anything more exciting? Not for us!

Together, we analyse, conceptualize and go through all steps from the stage to concept over planning and controlling the project including its implementation - providing highest precision and quality at every stage.

We can manage it all.

Successful brand worlds, a promoting design in any lifestyle sector - in short, one-stop supplier. To say it more personal: a committed team of idealists passionate about bringing their job to life.

[PROFICIENCY]

We create sensations for your brand that arouse your clients' emotions and lead to long-lasting clients' loyalty. That's no magic but a perfect interplay between many talents. We pull the strings together.

Providing creative and technical know-how, we can offer you either on all-inclusive service or a customised package for your specific needs. We are experienced in each and every aspect that is important for your success.

[CAPABILITIES]

Each project is individual, every implementation is unique. We get acquainted with your brand, uncovering its specific features. And focus on them for a perfect performance and a clear message. As global player, we are flexible and inventive - also internationally. Our long-standing and close partners reliably support us with their great craftsmanship for security and timeliness across all stages of the project.

[AN EFFECTIVE TEAM]

We live and love the ALL OF US, the productive and human interaction within our large HG family. This is where we draw our strength from, our creativity and enthusiasm. The best cornerstone for our work and guarantor for successful clients' loyalty. Of course, this applies to our partners and vendors as well.

Interacting is open and lifelike - particularly in collaboration with our clients and vendors. Authentic and honest, we are always personally at your service. As freethinkers, we do not only think straight ahead, but also strive for taking a look from another point of view. To find unexpected solutions. Striking out in a new directions, overcoming hurdles and making things possible: for us a calculable, exciting adventure - always with a happy ending.

3D PRINTING

Not only do we understand your visions, we have already integrated them. Our expertise in 3D printing for your brand is a successful distinguishing feature. 3D printing is a process of making three dimensional solid objects from a digital file. The creation of a 3D printed object is achieved using additive processes. In this process, an object is created by laying down successive layers of material until the object is created. Each of these layers can be seen as a thinly sliced horizontal cross-section of the eventual object. 3D printing is the opposite of subtractive manufacturing which is cutting out / hollowing out a piece of metal or plastic with for instance a milling machine. It enables you to produce complex (functional) shapes using less material than traditional manufacturing methods. From making interesting props, or any shape of mannequin, or may be making a life size replica of anything has just become so easy and accurate.

A life size girl doing circus was 3D printed in eight parts.
Later was joined together and painted.

FACADE SIGNAGES

Whether the facade is in a controlled mall environment or a free-standing store, we offer entire integrated facade solutions including ACP, Glass, Metal, HPL and other composites. Our products include specialty oversized signages with every detail considered. Our retail facades are “dry fit” to insure that once they arrive onsite, they will be assembled and installed quickly to meet the typical demands for abbreviated construction durations. We ensure continuity of materials and signage from one store to another to support branding strategies.

"HG Graphics have been an integral part of BURGER KING brand launch in India with its 1st outlet @ Select City Saket in 2014. Since then they have not looked back and have been consistently providing highest standard of Services till date in terms of all kind of Signages, VM, Instore Graphics, Partially decorative furniture, etc... We are now close to 125 stores and Burger King has been unconditionally served by HG Graphics so far. Keep up the teamwork..good luck!"

HG Graphics completes 22 years in retail application biz

By Satarupa Chakraborty | January 26, 2018

Primarily a graphics and signage manufacturer, HG started its 3D props business later last year. The company will soon start manufacturing 3D printed POS displays.

HG

Brand Retail Solutions

Delhi-based graphics, signage and props manufacturing company HG Graphics completes 22 years in retail applications business. Primarily a graphics and signage manufacturer, HG started its 3D props business later last year and is operating out of two facilities in Delhi and Faridabad respectively.

Talking to Retail4growth, Harjee Gandhi, Director, HG Graphics, exclaimed, "It has been a fabulous journey working with some of the topmost brands and retailers from India and overseas. We have always focused on innovations – be it graphics, signage, props and whatever we do. We are also concentrating on manufacturing which is machine-made and not hand-made in order to ensure aesthetics, detailing and accuracy. This is also less labour-intensive and supports us to adhere to timeline, which is the most important factor in retail today. We will soon start manufacturing 3D printed points-of-sale, which will be one-of-its-kind in the POP industry."
